

## Waite Hill 2022 Recycling Program

Council members and the entire Waite Hill Administration are pleased to announce a new recycling program for the residents of the Village. Starting May of 2022, River Valley Paper Recycling and Academy Metals will work in tandem with our Service Department to provide registered residents with access to recycling for **paper, cardboard and aluminum cans**. These vendors are providing the program at no cost to the Village.

*The first collection for cans will be Thursday, May 5<sup>th</sup> and the first drop-off for paper will be Saturday, May 7<sup>th</sup>. Please see the enclosed calendar.*

The program will start on a trial basis. For our recycling program to be successful, we need your cooperation in following **all** of the guidelines set forth by these vendors. If these rules are not followed, our vendors have advised us that we will be forced to discontinue the program.

All recycling programs face the reality that 25% to 40% of items placed in a recycling bin end up in landfills due to contamination. Contamination occurs when recyclable items are comingled with things that cannot be recycled. If a batch of recycling contains any contaminants the entire collection is deemed waste and sent to the landfill. Our vendors have advised that because of this fact they will be closely monitoring our recyclables to ensure compliance with their guidelines.

According to the EPA, paper, cardboard and metal make up almost 40% of the municipal waste generated in the United States. If Village residents can work together by eliminating contaminants and properly recycle these items, we can be confident that we will successfully keep these items out of the landfill.
